THE FOOD INNOVATOR

# LIPRODAIRY

LIPROFOOD offers a comprehensive range of instant dairy fat powders. The fat powders are manufactured on a basis of dairy and vegetable components, spray dried in our state-of-the-art production facility in The Netherlands. Dairy fat powders are used to replace whole milk powder in many different dairy applications, as an economical solution, without losing the typical properties of whole milk powders.

## INNOVATE TOGETHER

Do you want to develop innovative concepts? Do you want to apply our fat filled powder variations to your application? Our technical experts are looking forward to innovate together with you. We will help you to differentiate in your market area.
